INTRODUCTION.

The present publication is a preliminary edition of a list of periodicals, transactions of societies, and allied publications currently received in the libraries of the District of Columbia. A subsequent edition will embody whatever additions and corrections may appear necessary, and will include a classified index. The present edition is, therefore, merely provisional—a basis for a complete and correct list, and in the meantime useful as a check list.

As to publications received by other libraries, dependence has been had upon the lists furnished by those libraries. The returns submitted by them have been accepted and printed without changes other than those requisite for bibliographical uniformity.

The titles of publications received by the Smithsonian Institution are as reported by the Smithsonian authorities. The letters "SC." indicate those reported by them as currently received at the Smithsonian and sent directly to the Library of Congress to form there a part of the Smithsonian deposit.

The titles of Government documents received by the Library of Congress will be given in a later separate publication. They have not been included in the present list. Titles of such documents reported by other libraries have, however, been included, and where taken also by the Library of Congress that fact has been noted. Uniformity would, of course, have required that all such titles should be either included or excluded, but the line of demarcation is a difficult one and could not be satisfactorily drawn without a delay that seemed unnece

NOTE.

Special attention is called to the distinct purpose of this edition. It is to provide a basis for a complete and correct list, but to serve in the meantime as a check list.

To convenience corrections and additions in its use as a check list, it has been printed on writing paper, recto page, with wide margins. But the text itself is of the standard page (type measure) of the Library publications.

84102

The times of issue of periodicals are indicated as follows: d., daily; w., weekly; semi-m., semi-monthly; m., monthly; bi-m., bi-monthly; q., quarterly; semi-a., semi-annually; y., yearly. The letters at the end of the lines show the libraries by which the publications are taken.
